Thank you for confirming receipt of my September 1 notice.

I am aware of the publication. My decision to withdraw as your flight instructor and withdraw the solo privileges previously authorized was made in my capacity as your flight instructor and based on my assessment of your proficiency, consistency, and readiness to conduct solo flight safely.

The September 1 notice accurately states my decision and its basis. I have retained the relevant training records and documentation concerning your training and my decision.

I do not intend to engage in further discussion regarding this matter through this correspondence. Should it become necessary to address any specific statements published about me, I will do so through the appropriate channels.

I wish you the best in your continued flight training.
